

The Ornithology of the Baudin expedition (1800-1804)

Errata & Corrigenda

11 December 2019

Jansen, Justin J.F.J.
The Ornithology of the Baudin expedition (1800-1804)
Proefschrift Universiteit Leiden, Nederland

Published by author, Grave, Netherlands, ISBN:978-90-9030902-6

Errata

- Page 19 : 2nd last entry 140 = 142
Under the row of the D'Entrecasteaux Expedition "1791-1794" add at least 36 MLC under the column "Surviving specimens" and the reference Gouraud 2014a under the column "Publication(s) on birds"
- Page 31 : 5th line. Péron wrote the report not Baudin
- Page 33 Chapter New Holland, line 9 delete Fornasiero *et al.* 2004:64
- Page 38 ; 8th line. They called it Oyster Bay. Great Oyster Bay is further north, west of Freycinet Peninsula
- Page 53 : Last line table 2-001, unknown (nothing). 354 = 355. Therefore, totals change to 421 (not 420)
- Page 58 – 78 : Replace the full text with the published article in *Journal of Caribbean Ornithology* 32:39-48 (published 31 May 2019)
- Page 81 : *Le Naturaliste* was not off Dirk Hartog Island all of 16 July - 5 September 1801 but explored Shark Bay extensively, including Peron Peninsula
- Page 83 Black *et al.* 2013 was misquoted, Péron was not mentioned as a bird collector
- Page 98 : MNHN-ZO-2013-1149 = MNHN-ZO-2016-259
- Page 101 : The five acquisition books in MNHN are drafted in 1864 (when an inventory was made of specimens on display in the galleries) instead of 1856 (see Jackson, S. M., Jansen, J. J. F. J., Baglione, G. & Callou, C. 2020. *Mammals illustrated and collected by the Baudin Expedition to Australia and Timor (1800-1804) in the Museum National d'Histoire Naturelle, Paris: A review of specimens and current taxonomy.* In prep.). See also pages 157, 180, 182, 183, 230, 289, 290, 303, 308, 338, 356, 367, 371, 382, 649 (footnote 16 & 26) were 1856 is used, this should all be changed to 1864
- Page 111 : Dirk Hartog Island = Shark Bay (Dirk Hartog island, Peron Peninsula and other parts) (*Le Naturaliste* exploring this part of Australia)
MNHN A.C. 3488 = MNHN-ZO-2018-840
- Page 112 : In Horton, Jansen & Black 2020 (Péron as an ornithologist: identifying his 'new' bird species from the Baudin expedition), we also, identify North West Bay (and the North River), Port Cygnet, Derwent River (all Tasmania) or Western Port, Victoria as collecting locality
MNHN-ZO-2013-1103 = MNHN-ZO-2016-474
MNHN-ZO-2013-1105 = MNHN-ZO-2016-473
MNHN-ZO-2013-1118 = MNHN-ZO-2016-466
MNHN-ZO-2013-1136 = MNHN-ZO-2016-468
MNHN-ZO-2013-1138 = MNHN-ZO-2016-469
MNHN-ZO-2013-1149 = MNHN-ZO-2016-259
MNHN-ZO-2013-1156 = MNHN-ZO-2016-250
MNHN A.C. 6490 = MNHN-ZO-2018-753
MNHN A.C. 6491 = MNHN-ZO-2018-754
- Page 114 Gang-gang Cockatoo was collected in Sydney not Kangaroo Island (see also page 219)
- Page 123 Probably Lesueur was the chief collector on Timor, and might have taken many specimens attributed to Maugé
- Page 124 It was Péron, not Maugé who joined others on 26 or 29 August (Duyker 2006), see remark above
- Page 125 Under 'Arrival in France'; change 'collected by Maugé' into 'attributed to Maugé'
Next paragraph: the reference Fornasiero *et al.* 2016: 103-112 should be placed after coast
- Page 126 : Second paragraph line 6 and 7: delete Fornasiero *et al.* 2016: 47-48
- Page 136 : MNHN A.C. 3488 = MNHN-ZO-2018-840
- Page 141 : Specimen MNHN-ZO-2010-488 is a Dusky Woodswallow *Artamus cyanopterus* (re-identified by Andrew Black), and no part of the type series.
- Page 142 : MNHN-ZO-2013-1149 = MNHN-ZO-2016-259
MNHN-ZO-2013-1156 = MNHN-ZO-2016-250
- Page 144 : MNHN-ZO-2013-1103 = MNHN-ZO-2016-474 (twice)
MNHN-ZO-2013-1105 = MNHN-ZO-2016-473 (twice)
- Page 145 : MNHN-ZO-2013-1136 = MNHN-ZO-2016-468
MNHN-ZO-2013-1138 = MNHN-ZO-2016-469
- Page 146 : *Lonchura punctulata particeps* (Riley, 1920) = *Lonchura punctulata blasii* (Stresemann 1912)
MNHN-ZO-2013-1118 = MNHN-ZO-2016-466
- Page 147 : MNHN A.C. 6490 = MNHN-ZO-2018-753
- Page 148 : MNHN A.C. 6490 = MNHN-ZO-2018-753
MNHN A.C. 6491 = MNHN-ZO-2018-754

- Page 150 : MNHN A.C. 3488 = MNHN-ZO-2018-840
- Page 151 : MNHN-ZO-2013-1103 = MNHN-ZO-2016-474
 MNHN-ZO-2013-1105 = MNHN-ZO-2016-473
 MNHN-ZO-2013-1118 = MNHN-ZO-2016-466
 MNHN-ZO-2013-1136 = MNHN-ZO-2016-468
 MNHN-ZO-2013-1138 = MNHN-ZO-2016-469
 MNHN-ZO-2013-1149 = MNHN-ZO-2016-259
 MNHN-ZO-2013-1156 = MNHN-ZO-2016-250
 MNHN A.C. 6490 = MNHN-ZO-2018-753
 MNHN A.C. 6491 = MNHN-ZO-2018-754
- Page 185 : Delete 4th and 5th line below (Dumont did not participate in the 1796-98 voyage to the Caribbean)
- Page 203 : MNHN-ZO-2013-1149 = MNHN-ZO-2016-259
- Page 204 : Rainbow Lorikeet (MNHN-ZO-2004-109) is Coconut Lorikeet *Trichoglossus capistratus*
- Page 208 : MNHN-ZO-2013-1149 = MNHN-ZO-2016-259
- Page 209 : MNHN-ZO-2013-1149 = MNHN-ZO-2016-259
- Page 214 : add to Fig. 3-078 Grey Shrikethrush (Horton, Jansen & Black 2020)
- Page 216 : Correct identification = Probable Wilson's Storm Petrel *Oceanites oceanicus* (delete Bridled Tern) (Horton, Jansen & Black 2020)
- Page 222 : In Horton, Jansen & Black 2020, we correct the identifications, from:
 Number 6 = Green Rosella *Platycercus caledonicus*
 Number 7 = Green Rosella *Platycercus caledonicus*
 Number 13 = uncoloured Robin *Petroica ssp.*
 Number 18 = Probable juvenile Robin *Petroica ssp* or Grey Fantail *Rhipidura albiscapa*
 Number 19 = Grey Shrikethrush *Colluricincla harmonica*
 Number 21 = Black-faced Cuckooshrike *Coracina novaehollandiae*
 Latin name in 9 (*insula Maria*), 10 (*gasteroxanthus*), 12 (*rostrum oculo pedi-flavus*), 13 (*bivittatorufa*), 16 (*gasteroxanthus*), 18 (*bitaeniofulvoptera*), 21 (*lilaceocolor*) and 22 (*bas-our-erythros*) should also be corrected
 Locations to be corrected are: North West Bay, Détroit d'Entrécasteaux (n°11, 15, 18, 21)
- Page 223 : continuation from above
 Number 23 = Grey Currawong *Strepera versicolor*
 Number 24 = Possible Tasmanian Scrub-wren *Sericornis humilis*
 Number 27 = New-holland Honeyeater *Phylidonyris novaehollandiae*
 Number 28 = Azure Kingfisher *Ceyx azureus*
 Number 29 = Probable Wilson's Storm Petrel *Oceanites oceanicus*
 Number 30 = Possible Arctic Tern *Sterna paradisaea*
 Number 31 = Probable White-headed Petrel *Pterodroma lessonii*
 Number 33 = Red-footed Booby *Sula sula*
 Latin name in 33 (*sawuensis*) and 34 (*diemenesis*) should also be corrected
 Locations to be corrected are: North West Bay, Détroit d'Entrécasteaux (n° 28, 37), Bruny Island, Détroit d'Entrécasteaux (n° 24), Port Cygnet, Détroit d'Entrécasteaux (n° 25), Partridge Island, Détroit d'Entrécasteaux (n° 26), NW coast of Australia (n° 32), Savu Islands (n° 33)
- Page 227 : Various identifications have been reviewed (Horton, Jansen & Black 2020):
 Number 79092 = Uncoloured Robin *Petroica ssp*
 Number 79095 = New Holland Honeyeater *Phylidonyris novaehollandiae*
 Number 79101 = Probable Tasmanian Scrubwren *Sericornis humilis*
 Number 79102 = Probable juvenile robin *Petroica sp.* or Grey Fantail *Rhipidura albiscapa*
 Number 79104 = Grey Currawong *Strepera versicolor*
 Correct the Latin names in 79092 (*Muscivora bivittatorufa*), 79096 (*Basourerythros*) and 79102 (*Bitaeniofulvoptera*)
- Page 228 : follow-up from above (Horton, Jansen & Black 2020):
 Number 19106 = Adult Black-faced Cuckooshrike *Coracina novaehollandiae*
 Number 19109 = Grey Shrikethrush *Colluricincla harmonica*
 Number 19110 = Adult Green Rosella *Platycercus caledonicus*
 Number 79112 = Immature Green Rosella *Platycercus caledonicus*
 Number 79116 = Probable White-headed Petrel *Pterodroma lessonii*
 Number 79118 = Probable Wilson's Storm Petrel *Oceanites oceanicus*
 Number 79119 = Possible Arctic Tern *Sterna paradisaea*
 Number 79122 = Red-footed Booby *Sula sula*
 Correct the Latin name in 79106 (*Lilaceocolor*)

- Page 248 : add as source for MHNG 629.041 - Cibois, A., Valloton, L., Ericson P. G. P. Blom, M. P. K. & Irestedt, M. 2019. Genetic and radiographic insights into the only known mounted specimen of Kangaroo Island Emu. *Revue suisse de Zoologie* 126 (2):209-217
- Page 291 : correct Latin name to *Gasteroxantus* (Horton, Jansen & Black 2020)
- Page 293 : add to the frame, North West Bay (for 79105) (Horton, Jansen & Black 2020)
- Page 305 : add to the text for Wilson's Storm-petrel, *Sterna melasoma* Péron, 1803, *Collection Lesueur*, MHNH 798067r, 79118 – Great Australian Bight, South Australia = is a possible Wilson's Storm-petrel (Horton, Jansen & Black 2020)
- Page 327 : correct Latin name to *Diemenensis* (Horton, Jansen & Black 2020)
delete from frame and text: *Sula suawensis* Péron, 1803, *Collection Lesueur*, MHNH 79072Cv – Tasmania (Horton, Jansen & Black 2020)
- Page 328 : add to the frame and text from Red-footed Booby: *Sula sawuensis* Péron, 1803, *Collection Lesueur*, MHNH 79072Cv, 79122 – Savu Islands (Horton, Jansen & Black 2020)
Add to the frame of Brown Booby, NW coast of Australia (for 79121) (Horton, Jansen & Black 2020)
- Page 350 : add to the frame, North West Bay (for 79099) (Horton, Jansen & Black 2020)
- Page 359 : delete from frame and text: *Larus melapterus* Péron, 1803, *Collection Lesueur*, MHNH 79066Bc, 79116, 21003 (No 31) – South Tasmania, Mers Australes 43° (Horton, Jansen & Black 2020)
- Page 362 : delete from frame and text: *Sterna melasoma* Péron, 1803, *Collection Lesueur*, MHNH 798067r, 79118 – Great Australian Bight, South Australia (Horton, Jansen & Black 2020)
- Page 363 : The species described in *Collection Lesueur*, MHNH 79067r and 79119 is a Possible Arctic Tern *Sterna paradisaea* (Horton, Jansen & Black 2020). The collecting location of MNHN-ZO-2014-449 should be corrected to Maria island, with as date between 27 February and 8 March 1802
- Page 373 : Date MNHN-ZO-2014-2014-402 = 6 July 1801 (Fornasiero *et al.* 2004:62)
- Page 376 : type location *Sparvius niveus* Vieillot, 1817 & *Dædalium candidum* Lesson, 1830 = near Sea Elephant Conservation Area, West King Island, Tasmania, Australia (delete near Port Jackson)
- Page 386 : add to the frame and text: *Alcedo cristata* Péron, 1803, *Collection Lesueur*, MHNH 21003, 79093 – D'Entrecasteaux Channel, North West Bay (Horton, Jansen & Black 2020)
- Page 392 : MNHN A.C. 3488 = MNHN-ZO-2018-840 (twice)
- Page 393 : delete from frame and text: *Alcedo cristata* Péron, 1803, *Collection Lesueur*, MHNH 21003 – D'Entrecasteaux Channel (Horton, Jansen & Black 2020)
- Page 415 : add to the frame and text: *Psittacus lacepedii* Péron, 1803, *Collection Lesueur*, MHNH 79110, 79112 – D'Entrecasteaux Channel (Horton, Jansen & Black 2020)
- Page 421 : delete from frame and text: *Psittacus lacepedii* Péron, 1803, *Collection Lesueur*, MHNH 79110, 79112 – D'Entrecasteaux Channel (Horton, Jansen & Black 2020)
- Page 426 : correct Latin name to *Insula Maria* (Horton, Jansen & Black 2020)
- Page 450 : delete part of text (right column) from Scrubbird / Bristlebird
Collection Lesueur, MHNH 21003 = Grey Shrikethrush (Horton, Jansen & Black 2020)
- Page 455-458 : Identification corrections:
Photo (and text) 5-226 (RMNHN.AVES.89914) = Brown Treecreeper
Photo (and text) 5-227 (RMNHN.AVES.89915) = Brown Treecreeper
Photo (and text) 5-229 (RMNHN.AVES.89912) = White-throated Treecreeper
Photo (and text) 5-230 (RMNHN.AVES.89913) = White-throated Treecreeper
- Page 460 : Specimen NMS_Z 1921.1.7 has been relocated (Bob McGowan *in lit.* 16 January 2019)
- Page 462 : add to the frame, Port Cygnet (for 79114) (Horton, Jansen & Black 2020)
- Page 463 : *Muscivora bitoeniofulvoptera* = Probable juvenile robin *Petroica* sp. or Grey Fantail *Rhipidura albiscapa* (Horton, Jansen & Black 2020). Also n° is incorrect should be 79012
- Page 465 : MNHN ZO 2014-534 is well documented as 'an 11', returned with *le Naturaliste* (Black *et al.* 2013), and should be altered as such for Individual I, Individual II is correct
- Page 466 : Delete Crescent Honeyeater from the book
- Page 466 : White-cheeked Honeyeater, the collecting locality is more likely in Two Peoples Bay and vicinity rather than Shark Bay. Also, *ssp niger* and *gouldii* are very similar, note however, that in *An 12* no location was visited in the distribution area of *niger*. Future research should shed some light on the *ssp* involved (maybe some specimens from Sydney remained in *Le Géographe*....)
- Page 468 : Add to frame and text: *Certhia flavoptera* Péron, 1803, *Collection Lesueur*, MHNH 79095, 21003 - d'Entrecasteaux Channel, Tasmania (Horton, Jansen & Black 2020)
- Page 472-473 : Specimen MNHN-ZO-2010-469 = White-naped Honeyeater *Melithrepus lunulatus* and collected in Sydney by Charles-Alexandre Lesueur (re-identified by Andrew Black). This adds a new species to the collecting list

- Page 473 NMW 52.016 looks to be *M. lunatus* (red eye ring), not *M chloropsis* (Andrew Black *in lit.*)
- Page 475 :First paragraph Yellow-throated Honeyeater not bold, type locality = d'Entrecasteaux Channel (Horton, Jansen & Black 2020)
- Page 487 :delete from frame and text:*Tanagra lilacolor* Péron, 1803, *Collection Lesueur*, MHNH 79106 – d'Entrecasteaux Channel (Horton, Jansen & Black 2020)
- Page 489 :add to the frame, Partridge Island (for 79100) (Horton, Jansen & Black 2020)
- Page 491 :the identification of the Mangrove Honeyeater might have a follow up in the future, as there are some doubts (Andrew Black *in lit.*)
- Page 507 MNHN-ZO-2014-489 is probably not the bird that flew onto the ship off Nuyt's Archipelago (*Collection Lesueur*, MHNH 79117) which was a young bird or female (Andrew Black *in lit.*)
- Page 510 :Add to frame and text:*Turdus epirufus* Péron, 1803, *Collection Lesueur*, MHNH 79109 - d'Entrecasteaux Channel (Horton, Jansen & Black 2020)
- Page 511: :add to the frame, North West Bay (for 79108)
add to frame and text *Tanagra lilaceocolor* Péron, 1803, *Collection Lesueur*, MHNH 79106 – d'Entrecasteaux Channel, North West Bay
- Page 515 :MNHN ZO 2014-482 is *Coracina papuensis robusta* (Latham, 1802) (re-identified by Andrew Black) add this subspecies to the list (not listed)
- Page 516 :MNHN-ZO-2013-1103 = MNHN-ZO-2016-474
MNHN-ZO-2013-1105 = MNHN-ZO-2016-473
- Page 521 :Grey Currawong. Add to frame and text *Corvus australis* Péron, 1803, *Collection Lesueur*, MHNH 79080, 79104 - Kangaroo Island, Tasmania
Grey Currawong:MNHN-ZO-2010-512. Its dorsal plumage is black, brownish grey below (wing 293 mm, bill 70.7 mm), consistent with the phenotype of Tasmanian 'Clinking Currawong' *Strepera versicolor arguta* Gould, 1846 (Andrew Black *in lit.*)
- Page 523 :ssp Dusky Woodswallow is incorrect = *Artamus cyanopterus cyanopterus* (Latham 1802) (Andrew Black *in lit.*)
- Page 525 :Add to frame and text:*Ocypterus albo-vitatus* Valenciennes, 1820, *Mem. Mus. Hist. Nat.* VI:23 –Timor = Bernier Island, Shark Bay, Western Australia (this dissertation).
- Page 525 :In the frame. Delete Type designation: Mees 1968:252
Individual I: ZMO-GalOis 3:3616. MNHN-ZO-2010-488 is a Dusky Woodswallow *Artamus cyanopterus* (re-identified by Andrew Black), see for collecting locality etc, Text Dusky Woodswallow on page 523-524
- Page 526 :Fig. 5-302 = Dusky Woodswallow *Artamus cyanopterus*
- Page 527 :delete from frame and text:*Ocypterus albo-vitatus* Valenciennes, 1820, *Mem. Mus. Hist. Nat.* VI:23 –Timor = Bernier Island, Shark Bay, Western Australia (this dissertation)
- Page 531 :MNHN-ZO-2013-1149 = MNHN-ZO-2016-259 (twice)
