

Dr. E. J. C. HAMP

DROUIN.

Phone: Drouin 13.

Victoria.

The Museum Director,

Perth, W.A.

Dear Sir,

I am writing to enquire if you could kindly supply me with information concerning Boomerangs in possession of your Museum. At the present time, I am gathering together as much data as possible on boomerangs, and I hope to submit an article for overseas production at a later date.

The information that I am seeking is:-

1. Have you any boomerangs of the returning type, made by Western Australian natives?

If so, could you kindly tell me from which part of the state they were obtained? (I

will be very surprised if you have any as I gather from information so far obtained

that boomerangs of the returning type are
to be found only in South Eastern Australia.)
2. Could you please let me know what other
kinds of boomerangs you have in your possession?

Two other Australian Museums have
already helped me quite considerably in my
search, and before submitting my article, I
am anxious to have all data possible in my
possession.

I am,

Yours sincerely,

E. J. B. Hamp
