Dear Sir,

It is with the greatest pleasure that I acknowledge receipt of your letter of April 30th together with a copy of your article on Djamar the Creator and that very fine stone tjuringa which you received from members of the Gogadja living to the east of Gregory's Salt Lake.

This Museum is very anxious to build up its collection of Australian material before it is too late for even now objects received show that they have been made with the help of steel or iron tools instead of the stone and bone that were used in years gone by, also ~~specimens~~ *specimens* dealing with your researches would be carefully stored among the Museum's Collection of reprints.

Wishing you further success and with best wishes.

Yours sincerely,

LG.
