Sir.

I am in receipt of yours of 5th inst relative to the donation of "a native grind stone or hammer." This was discovered and donated by my son Mr T.K. Bettison and I would be pleased if you would make the correction. Some local interest has been aroused by the radio announcement re this hammer and it seems that there are one or two held by persons here. Are these rare, and if handed in would they be of interest or value, or merely stored away? If the latter I think their owners would retain them, otherwise they may possibly be handed in. I would be pleased to know the native name for this implement and its pronunciation.

Yours Faithfully,
J. L. P. Bettison.
