The Committee
Dear Sir

I have much
pleasure in presenting
your museum with
three native baskets
which were found by
me among the natives
in the vicinity of the
Hospital Range. well
kindly preserved
articles of ^{this} kind are
very rare among the
natives of this Colony
and in all my experience
and all travels among
the natives I have

never came across better
specimens than those I am
forwarding

I remain yours &
Ed.

The Keviclovvi is
the native name of the
baskets
