Mr. J. B. R. Love,
Port George IV Presbyterian Mission,
via Broome.

Dear Mr. Love,

Many thanks for your letter of 10th April, and for sending us the interesting specimens, some of which I exhibited at the meeting of the Royal Society.

I handed them over to my colleague, Mr. Glauert, and I believe he has replied to your letter, so that I need not refer to it.

When I saw you I think we left it that if you saw opportunities of collecting natural history specimens we would send you up the required preservatives. You do not ask for them, so perhaps you have not the time to spare, but as we have practically nothing from your locality, even the common birds or mammals, or anything else in fact, would be of much interest to us.

I am,

Yours very sincerely,

W.B.A.

KEEPER OF BIOLOGY.
