

May 31 /16.

Mynelham.

Dear Sir

I have received 8^d for the cost of carriage of specimens sent last mail - many thanks. Will you in future not trouble with these smaller sums. As I consider it a privilege to be of use. otherwise - I am afraid I did not make myself quite clear when writing you some time ago.

You were given to understand that the government issued prepaid vouchers for the ~~for~~ transit of specimens and at the time I had a few bulky parcels the cost of which would have been too heavy for me to meet. ~~at the time~~ - I never had it in view however. It is for you to pay for the carriage of these smaller packages.

Yours Truly,

John S. Dobson

P.S. A few of us will be travelling up some of the local rivers shortly when samples of fossilised shells will be collected. I wonder if there would be of any use or interest.

JSD
