20 Aug 1916

Dear Sir

I am much obliged to you for the photo of
the aboriginal missile that you have sent me,
and the remarks regarding its use in the Eucla district.
I see that the copy of my letter to you is dated 9th May
I must have omitted dates the original.

The aboriginals are so very elusive that it is difficult
to keep their whereabouts known, even when one is
living in the district, but I hope to glean some further
information regarding the use of the article gradually
from them indirectly. I am yours faithfully
W.D. Campbell

The General Secretary
