

Dear Dr. Hamlyn-Harris

Mar 17

at last I am able to send you the long  
promised notes on our Invasive Species. The large  
amount of extra work that has been my lot during  
Mr. Alcock's absence gave me very little time  
to go into the matter. As he is now with us for a few  
weeks I have been able to <sup>examine my specimens</sup> ~~go into the matter~~ thoroughly  
& am enclosing the results herewith.

Owing to the absence of our typist I am forced to  
send the notes on M.S. I hope this will not in  
convenience you when you come to deal with the  
matter.

Will you please return the notes when  
you have finished with them?

Again apologising for the long delay, ~~which~~  
~~remains~~

I remain

Yours sincerely

Alcock
