

613

5th November,

17.

Messrs. Moss and Richardson,
Broome.

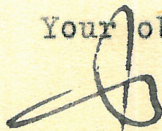

Gentlemen,

I am informed by Mr. Stuart that during his recent visit to the North West a native dug-out was secured by his party and left with your firm on the understanding that if this Museum required it, I should advise you to that effect. As the specimen would be a most valuable acquisition to the ethnographical section of the Museum I should be glad if you will kindly put it on the next Government steamer and address it to the General Secretary Public Library, Museum and Art Gallery, Perth. Being a scientific specimen for the Museum it ought to come free, but if any objection is made to that, will you please make the freight payable at this end and forward the B/L to me when you advise me of the despatch of the object.

I have the honour to be,

Gentlemen,

Your obedient servant,

GENERAL SECRETARY AND
CHIEF LIBRARIAN.
