Museum & Art Gallery.
Perth.

Dear Sir,

Yours 5th Novr. re native dug-out, we will try and get this away on the Bambra for you, we are afraid you will be disappointed with it as we do not think it is a very good specimen, we would advise you to inspect it on arrival before you decided to take it up to the museum. They are most difficult things to get and for want of a better one you might be glad to have this one.

Yours faithfully,

Moss Richardson
