The Curator
Museum Perth

Dear Sir

I am forwarding you
by same mail, by parcel post, sample
of the natives work in this district.
The cross pieces of the spinning stick
have been tacked down for better
carrying, they should be at right
angles to each other. This stick
is ~~twisted~~ twisted up & down the leg
with the right hand & the hair fed to
it with the left. The stick is just
as I got it from the natives. am
also enclosing two pieces of flint.

Hope the above will be of interest

yours faithfully

Aboussel
