The Manager
State Steamships
Fremantle

Dear Sir,

I have been informed by Mr. Easton, a surveyor in the Lands Dept., who has just returned from an official survey of a part of the Kimberley district, that he left a dug-out canoe which he secured for this Museum, in the care of the Manager for Connor, Doherty, and Durack at Wyndham to be brought down by the Bambra. As Museum specimens are carried free upon the Government Railways, the Trustees would be glad to learn that the Government are prepared to extend the same concession to specimens brought down by boat. I am instructing Wyndham to have the canoe shipped on the next trip of the Bambra.

I am,

yours faithfully,

GENERAL SECRETARY.
